Proceedings of

ESA Living Planet Symposium

28 June – 2 July 2010
Bergen, Norway
CONTENTS

Foreword

GEO Task on Forestry

Coordination of Space Data Acquisition in Support of GEO Forest Carbon Tracking

JAXA’s Activities for Forest Carbon Tracking – Global Forest Mapping Dataset and K&C
M. Shimada, O. Isoguchi, R. Preesan et al.

Monitoring Australian Continental Land Cover Changes Using Landsat Imagery as a
Component of Assessing the Role of Vegetation Dynamics on Terrestrial Carbon Cycling
P. Caccetta, R. Waterworth, S. Furby & G. Richards

SAR Waves

A New Empirical Algorithm for Deriving Information on Two-Dimensional
Ocean Wave Spectra from SAR Image Spectra
R. Romeiser & H. Graber

Project GlobWave
G. Busswell, E. Ash, J.-F. Piolle et al.

Ocean Swell in the Vicinity of the Gulf of Tehuantepec, Mexico
G. Díaz Méndez & F.J. Ocampo-Torres

A Radar Modulation Transfer Function for Oceanic Internal Waves
K.-F. Dagestad, V. Kudryavtsev, J.A. Johannessen, M.W. Hansen

EO Data Policy, Access & Preservation

G-POD: A Collaborative Environment for Earth Observation at the European Space Agency
J. Farres, E. Mathot & S. Pinto

A European Framework for the Long Term Preservation of EO Data
M. Albani, V. Beruti & M.E. Forcada
Envisat Mission Beyond 2010

Envisat Mission Extension Beyond 2010
P. Vogel, M. Canela & B. Duesmann

The Envisat Mission Extension 2010 – Implications for On-Ground and On-Board Operations
F.-J. Diekmann, D. Mespes, L. Ventimiglia et al.

Strategy for Spacecraft Performance and Mission Extension
M. Canela, P. Vogel, R. Lorza-Pitt & B. Duesmann

SAR Methods

The Performance of the ERS-2 SAR after 15 Years
P. Meadows, N. Miranda, A. Pilgrim & E. Griffiths

Assessing SAR Calibration Requirements Using Geophysical Retrieval Algorithms
T. Macklin, P. Wright, A. Pilgrim et al.

Terrain-Corrected Gamma: Improved Thematic Land-Cover Retrieval for SAR with Robust Radiometric Terrain Correction
D. Small, N. Miranda, L. Zuberbühler et al.

A Global Backscatter Model for C-Band SAR
D. Sabel, M. Doubková, W. Wagner et al.

Mixed-Mode SAR Interferometry: An Extensive Experiment
C. Liang, Q. Zeng, J. Jiao et al.

Emulation of TOPSAR Mode Data for its Interferometric Capabilities Analysis
J. Duro, D. Albiol, A. Arnaud et al.

Sub-Meter Geoposition Accuracy of Image Pixels in TerraSAR-X Data
D.J. Weydahl, & K. Eldhuset

International Relations

New Directions in Land Remote Sensing Policy and International Cooperation
T. Stryker

OPT/IR Cal/Val

MERIS 3rd Reprocessing
P. Goryl, J.-P. Huot, S. Delwart et al.

OPT/IR New Methods & Products

Monitoring the South Atlantic Anomaly Using ATSR
S. Casadio, O. Arino & D. Serpe

Gas Flaring Monitoring Using ATSR Night-Time Measurements
S. Casadio, O. Arino & D. Serpe
Envisat/MERIS and Landsat/TM Image Fusion Using a Multi-Resolution Linear Unmixing
J. Amorós López, L. Gómez Chova, L. Guanter et al.

Altimetry Cal/Val & New Algorithms

Corsica: An Experiment for Long-Term Altimeter Calibration and Sea Level Monitoring
P. Bonnefond, P. Exertier, O. Laurain et al.

A Global Assessment of the Envisat RA-2 Performance over Non-Ocean Surfaces
P.A.M. Berry & R.G. Smith

Recovery of Short Wavelength Geophysical Signals with Future Delay-Doppler Altimeters (CryoSat II and Sentinel Type)
O.B. Andersen

The Bayes Linear Altimeter Retracker
P. Challenor & Y. Andrianakis

Basic Radar Altimetry Toolbox & Tutorial
V. Rosmorduc, J. Benveniste, L. Breebaart et al.

Atmosphere: Cal/Val

Optimal Representation of Level 2 Products of Atmospheric Measurements in View of Subsequent Applications
B. Carli, S. Ceccherini & P. Raspollini

Multi-Mission Validation by Radio Occultation: System Setup and Example Results from MIPAS and GOMOS Validation
S. Körner, G. Kirchengast, J. Fritzer et al.

Forestry & Biomass

Earth Observation and Political Negotiations: Supporting Developing Countries in Implementing Post-Kyoto
M. Herold

The BIOMASAR Algorithm: an Approach for Retrieval of Forest Growing Stock Volume Using Stacks of Multi-Temporal SAR Data
M. Santoro, C. Beer, O. Cartus et al.

C-Band Intensity-Based Growing Stock Volume Estimates Versus the MODIS Vegetation Continuous Fields Tree Canopy Cover: Does C-Band See More than Canopy Cover?
O. Cartus, M. Santoro & C. Schmullius

Assessment of Potentiality of L-Band Quadpol Radar for the Retrieval of Growing Stock Volume and Forest Structural Parameters in Central Siberia
T.A. Chowdhury, C. Thiel & C. Schmullius

Dual-Band Radar Estimation of Stem Volume in Boreal Forest
Y. Rauste, H. Astola, H. Ahola et al.

The Potential of PolInSAR ALOS/PALSAR Data to Detect Land Use/Cover Changes in Amazon
V. Liesenberg & R. Gloaguen

SAR Satellite Images and Terrestrial Laser Scanning in Forest Damages Mapping in Finland
M. Karjalainen, S. Kaasalainen, J. Hyyppä et al.
Forest Mapping of the Northern Hemisphere with Spaceborne Radar
M. Santoro, C. Schmullius, C. Beer et al.

Monitoring of Tropical Forest Cover and Biomass by Combining VHR Image Sample and Wall-to-Wall Optical and SAR Data
T. Häme, J. Kilpi, H. Ahola et al.

Large Scale Classification Using PALSAR/ALOS Data: Case of the Tropical Rain Forest in Indonesia
N. Longépé, P. Rakwatin, O. Isoguchi et al.

Monitoring Indonesian Forest Management in Support of Sustainable Forestry and Carbon Emissions Reductions
A. Dean, K. Shono, K. Kliparchuk et al.

Assessing Peatlands in Tropical Swamp Forest of Central Indonesia with Dual-Polarimetric TerraSAR-X Data
A. Wijaya, P.R. Marpu, V. Liesenberg & R. Gloaguen

Potential of Fusion of SAR and Optical Satellite Imagery for Biomass Estimation in Temperate Forested Areas
N. Ackermann, C. Thiel, M. Borgeaud & C. Schmullius

L-Band SAR Backscatter Prospects for Burn Severity Estimation in Boreal Forests
M. Tanase, M. Santoro, J. de la Riva et al.

Sea-Ice

Retrieval of Sea Ice Drift from SAR Doppler Shift
M.W. Hansen, K. Kloster, K.-F. Dagestad et al.

Evaluation of Sea Ice Concentration Algorithm for SAR Data from the Bay of Bothnia
A. Berg & L. Eriksson

Evaluation of Multi-Polarization SAR Data at L-, C- and X-Band for Sea-Ice Monitoring in the Baltic Sea

Multi-Frequency and Multi-Polarization SAR Use at the Canadian Ice Service—An Operational Perspective
M. Arkett, R. De Abreu, T. Zagon et al.

The Giant Ice Rings in Lake Baikal: A Look from Space and from Beneath
A.V. Kouraev, M.N. Shimaraev, F. Rémy et al.

Bayesian Sea Ice Detection with ASCAT
J. Verspeek, M. Belmonte Rivas, A. Stoffelen et al.

CryoSat2 Pre-Launch Validation Measurements on Arctic Sea Ice
M. Nicolaus, S. Hendricks, L. Stengseng et al.

On Level Ice Thickness Retrieval in the Kara Sea Using MODIS and Envisat ASAR Data
M. Mäkynen, M. Similä & B. Cheng

Thin Ice Classification and Thickness Estimation Using ASAR, PALSAR, RADARSAT-2, and TerraSAR-X Data: First Results
W. Dierking

Melt Ponds as Observed with a Helicopter-Borne, Multi-Frequency Scatterometer in the Arctic Ocean in 2007
S. Kern, M. Brath & D. Stammer
GOCE: Mission Status & First Science Results

Flight Operations for GOCE, ESA's Gravity Mission
C. Steiger, R. Floberghagen, M. Fehringer et al.

Rapid and Precise Orbit Determination for the GOCE Satellite
P. Visser, J. van den IJssel, T. Van Helleputte et al.

GOCE: Level 1B Data Processing and In-Flight Calibration

Accelerometers of the GOCE Mission: Return of Experience from One Year of In-Orbit
J.-P. Marque, B. Christophe & B. Foulon

The In-Flight Calibration of the GOCE Gradiometer
S. Cesare, G. Catastini, R. Floberghagen & D. Lamarre

Alternative In-Flight Calibration of the GOCE Gradiometer
D. Lamarre & M. Kern

GOCE: Level 2 Data Processing and Products

Two Methods for Quality Assessment of GOCE Gradients
P. Brieden & J. Müller

Goce Gravity Field Model Derived from Orbit and Gradiometry Data
Applying the Time-Wise Method
R. Pail, H. Goiginger, R. Mayrhofer et al.

GOCE Data Analysis: The Space-Wise Approach and the First Space-Wise Gravity Field Model
F. Migliaccio, M. Reguzzoni, F. Sansò et al.

Precise Orbit Determination of Low Earth Satellites at AIUB
A. Jäggi, H. Bock, D. Thaller et al.

Quicklook Gravity Field Solutions as Part of the GOCE Quality Assessment
R. Mayrhofer, R. Pail & T. Fecher

Refinement of the Stochastic Model of GOCE Scientific Data and its Effect on the In-Situ Gravity Field Solution
W.-D. Schuh, J.M. Brockmann, B. Kargoll et al.

GMES Space Component

The GMES Sentinel-2 Operational Mission
F. Spoto, P. Martimort, O. Sy et al.

The Sentinel-3 Mission
B. Berruti & C. Mavrocordatos

GMES for Land Applications

Geoland2 – Operational Monitoring Services for our Changing Environment
R. Lacaze, A. Kaptein, M. Banaskiewich et al.
GMFS Service Integration and Know How Transfer to Africa  
*C. Haub & S. Gilliams*

The DUE Globwetland-2 Project  
*M. Paganini, K. Weise, E. Fitoka et al.*

**Volcanic Emissions**

Monitoring of Volcanic Eruptions and Determination of SO$_2$ Plume Height from GOME-2 Measurements  
*M. Rix, P. Valks, D. Loyola et al.*

An Optimal Estimation Approach to Sulphur Dioxide Retrievals from GOME-2  
*C.R. Nowlan, X. Liu, K. Chance et al.*

**Volatile Organic Compounds**

ACE: Detecting Volatile Organic Compounds from Orbit  
*J.J. Harrison, N.D.C. Allen & P.F. Bernath*

Using IASI to Investigate Carbon Monoxide and Volatile Organic Compounds Emissions from Local African Fires  
*S.M. Illingworth, J.J. Remedios, H. Boesch et al.*

**OPT/IR New Methods & Products**

A Hyperspectral Multispectral Algorithm for Fluorescence and Reflectance Retrieval from Space  
*M. Mazzoni, P. Falorni & W. Verhoef*

The Group for High Resolution Sea Surface Temperature Diagnostic Data Set  
*D.J.S. Poulter, I.S. Robinson & C.J. Donlon*

**Ocean Colour**

Analysis of MERIS Chlorophyll Time Series (2003-2008) or Systematic Errors in MERIS Level 2 Products  
*D. Müller, H. Krasemann & R. Doerffer*

Pan-Arctic View of Ice-Edge Phytoplankton Blooms  
*M. Perrette, G.D. Quarty, E.E. Popova & A. Yool*

Global Yearly Observation of Different Phytoplankton Groups Using PhytoDOAS on SCIAMACHY Data: Validation and First Application  
*A. Bracher, T. Dinter, B. Schmitt et al.*

Improved Global Ocean Color Using Polymer Algorithm  
*F. Steinmetz, D. Ramon, P.-Y. Deschamps & J. Stum*

Estimating PCO$_2$ from Remote Sensing in the Belgian Coastal Zone  
*A.V. Borges, K. Ruddick, G. Lacroix et al.*

Monitoring the Spring Bloom in Coastal Waters of British Columbia, Canada Using FLH  
*J. Gower & S. King*
An Update on Global Observations of Intense Surface Plankton Blooms and Floating Vegetation Using MERIS
S.A. King & J. Gower

Wave & Wind from Altimetry

Long Term Assessment of ERS-1 and ERS-2 Wind and Wave Products Using ERA-Interim
S. Abdalla, H. Hersbach & J.-R. Bidlot

Analysis of Seasonal Wave Height Anomalies from Satellite Data over the Global Oceans
P. Queffeulou, A. Bentamy & D. Croizé-Fillon

SAR Winds

Offshore Wind Atlas for Northern European Seas
C.B. Hasager, I. Karagali, P. Astrup et al.

A Hybrid Method for Offshore Wind Resource Assessment
M. Badger, J. Badger, M. Nielsen et al.

Investigation of Coastal Wind Fields over the Black Sea Using Envisat Synthetic Aperture Radar Images
W. Alpers, A.Yu. Ivanov & K.-F. Dagestad

ASCAT Scatterometer Wind Quality Control
M. Portabella, A. Stoffelen, A. Verhoef & J. Verspeek

On High-Resolution Scatterometer Winds near the Coast
A. Stoffelen, A. Verhoef, J. Vogelzang et al.

Sea Surface Temperature

ATSR Reprocessing for Climate: Sea Surface Temperature
C.J. Merchant & O. Embury

Validation of AATSR Using the ISAR Radiometer – Results Since 2004 and a New Approach for a Match-Up Quality Indicator
W. Wimmer, I. Robinson & C. Donlon

Hazards Assessment & Mapping

B. Allenbach & S. Battiston

Synergy of Earth Observation and In-Situ Monitoring Data for Flood Hazard Early Warning System
L. Brodsky, R. Kodesova & K. Spazierova

Towards an Automated Envisat ASAR-Based Flood Monitoring System
P. Matgen, R. Hostache, L. Pfister et al.

Canadian Disasters Initiatives Using Envisat and RADARSAT-2
G. Aubé
Use of Satellite SAR Data for Seismic Risk Management: Results from the Pre-Operational ASI-SIGRIS Project  
S. Salvi, S. Vignoli, S. Zoffoli & V. Bosi

Insights to the Emergency Mapping Service within the GMES Project SAFER – Highlights, Main Achievements and Challenges  
T. Schneiderhan, M. Gähler, O. Kranz & S. Voigt

**Volcanoes**

Globvolcano: Global Monitoring of Volcanoes from Space  
M.L. Tampellini, R. Ratti, F.M. Seifert et al.

**SMOS Overview & Instrument Performance**

SMOS: Objectives and Approach for Ocean Salinity Observations  
J. Font, J. Boutin, N. Reul et al.

SMOS Payload Commissioning Plan  
M. Martin-Neira, M. Brown, F. Martin-Porqueras et al.

First Assessment of the MIRAS In-Orbit Instrument Verification  
J. Closa, J. Benito, M. Bergada et al.

SMOS-MIRAS Calibration and Performance  
I. Corbella, F. Torres, V. Gonzalez-Gambau et al.

L1PP Performance Analysis for SMOS in Orbit Commissioning Phase  
R. Castro, R. Oliva, J. Barbosa et al.

**Cal/Val Activities**

First Analysis of SMOS Sea Surface Salinity  
X. Yin, J. Boutin, P. Spurgeon et al.

Preliminary Cross-Validation of the SMOS Measurements Against Modeled Brightness Temperatures and External Salinity Data  
R. Sabia, J. Gourrion, C. Gabarró et al.

Sensitivity to Soil Moisture Variations of Microwave Radiometric Signatures over the Argentinian Chaco Forest  
R. Rahmoune, P. Ferrazzoli, F. Grings et al.

SMOS Validation in the Upper Danube Catchment (UDC): A Status Report Eight Months after Launch  
F. Schlenz, J.T. Dall'Amico, A. Loew & W. Mauser

Surface Soil Moisture Distribution Results for the CAROLS Campaign at the Valencia Anchor Station Study Area, 2009  
C. Millán-Scheiding, C. Antolin, F. Requena et al.

Monitoring SMOS Brightness Temperatures over Land: Implementation and Preliminary Results  
J. Muñoz Sabater, A. Fouilloux, P. de Rosnay et al.

Verification and Assimilation of the SMOS Data  
J.-C. Calvet, C. Alberge, E. Zakharova et al.
Glaciology

Inland Response of Antarctica Outlet Glaciers
T. Flament & F. Rémy

Greenland Ice Sheet Changes from Space Using Laser, Radar and Gravity
L. Sandberg Sorensen, L. Stenseng, S.B. Simonsen et al.

Glacier mapping with ALOS PALSAR Data within the ESA GlobGlacier Project
T. Strozzi, F. Paul & A. Kääb

Variations of the Arctic Ice-Snow Cover in Nonhomogeneous Geopotential
A.I. Sharov, R. Puil, R. Perko et al.

Separation of Icebergs and Sea Ice in SAR Images
C. Wesche & W. Dierking

Permafrost

High Resolution Vegetation and Water Body Mapping in Arctic Permafrost Regions
S. Pöcking, S. Hese, M. Urban et al.

GLOF, Glacial Lake Mapping an ESA DUE Innovator 2 Project
A. Wiesmann, T. Strozzi & A. Kääb

The Contribution of InSAR Data to the Early Detection of Potentially Hazardous
Active Rock Glaciers in Mountain Areas

Implementation of a Satellite Data Based Permafrost Information System
– The DUE Permafrost Project
A. Bartsch, A. Wiesmann, T. Strozzi et al.

GOCE: Validation, Regional Solutions and Methodology

Combination of GRACE and GOCE In Situ Data for High Resolution
Regional Gravity Field Modeling
M. Schmeer, C. Gruber, M. Schmidt & F. Flechtner

Determination of the Gravity Field over Norwegian Territories (GRAVNOR) Using
GOCE Data and Space Geodesy Software GEOSAT
E. Mysen & P.H. Andersen

GOCE Data Analysis: Realization of the Invariants Approach in a High
Performance Computing Environment
O. Baur, N. Sneeuw, J. Cai & M. Roth

GOCE in Oceanography

Dynamic Ocean Topography from GOCE - Some Preparatory Attempts
A. Albertella, R. Rummel, R. Savcenko et al.

Full Resolution Geoid from GOCE Gradients for Ocean Modeling
M. Herceg & P. Knudsen
GOCE in Geophysics

The SEEGOCE Project
M. Diament & the SEEGOCE Team

GOCE Observations for Detecting Unknown Tectonic Features
C. Brautenberg, P. Mariani, M. Reguzzoni & N. Ussami

Refining Regional Gravity Field Solutions with GOCE Gravity Gradients for Cryospheric Investigations
D. Rieser, R. Pail & A.I. Sharov

GOCE: National Activities, Laser Tracking and Orbit Considerations

EUPOS and SLR Contribution to GOCE Mission
J. Balodis, M. Caunite, I. Janpaule et al.

Some Aspects of the Orbit Selection for the Measurement Phases of GOCE
A. Bezděk, J. Klokočník, J. Kostelecký et al.

GMES for Atmosphere Applications

Pasodoble - The GMES Downstream Service Project for Air Quality
T. Erbertseder & the Pasodoble Consortium

GMES for Solid Earth Applications

Terrafirma: A Pan-European Ground Motion Hazard Information Service
G. Cooksley

European Volcano Observatory Space Services (EVOSS)
M.L. Tampellini, S. Tait & F. Ferrucci

Polimetry & Polinsar

Polarimetric Scattering from Shallow Firn and Forests with Snow Cover
I.A. Brown

Dual and Full Polarimetric-Interferometric Capabilities of ALOS/PALSAR for Forestry Applications
M. Lavalle, M. Simard, E. Pottier et al.

Stratospheric Constituents

MIPAS Observations of Stratospheric and Upper Tropospheric Trace Gases: An Overview
T. von Clarmann, G.P. Stiller, E. Eckert et al.

Measurement of NOx Diurnal Cycle from MIPAS Envisat
J. Walker & A. Dudhia
Assimilation of MIPAS Limb Radiances in the ECMWF System  
R. Dragani & N. Bormann

Descent from the Polar Mesosphere and Anomalously High Stratopause Observed in 8 Years of Water Vapor and Temperature Satellite Observations by the Odin Sub-Millimetre Radiometer  
Y. Orsolini, J. Urban, S. Lossow et al.

Data Fusion of Vertical Profiles of an Atmospheric Constituent Retrieved from Remote Sensing Measurements  
S. Ceccherini, U. Cortesi, S. Del Bianco et al.

Clouds

First Results of MIPclouds: A Cloud Processor for MIPAS/Envisat  
R. Spang, L. Hoffmann, K. Arndt et al.

Investigating the Long-Term and Seasonal Behaviour of Clouds with MIPAS  
H. Sembhi, J. Remedios, A. Horserman & J. Delanoë

15 Years of Global Cloud Data Derived from GOME and Scyamachi Oxygen A Band Measurements  
P. Wang, N. Fournier, R. van der A & P. Stammes

Contrails and Climate Change: An Investigation of the Role of Aviation-Induced-Cloudiness on the Ireland Climate Using AATSR Imagery  
G.M. Whelan, F. Cawkwell, H. Mannstein & P. Minnis

Synergistic Use of MERIS and AATSR Data for Cloud Screening  

Persistent Scatterers Interferometry

A Least Square Approach for Joining Persistent Scatterer InSAR Time Series Acquired by Different Satellites  
M. Caro Cuenca, S. Samiei Esdahany & R. Hanssen

Swelling Soils and Vegetation Interactions: New Results from PSI Monitoring on Eastern Paris Area (France)  
H.F. Kaveh, B. Deffontaines, B. Fruneau et al.

Comparing Mid-Resolution C-Band and High-Resolution X-Band PS-InSAR Results over Shanghai  
M. Liao, Y. Pei, T. Balz et al.

Future Earth Explorers

ADM-Aeolus: ESA’s Wind Mission  
P. Ingmann, A.G. Straume & ADM-Aeolus Mission Advisory Group

EarthCARE: The ESA-JAXA Cloud, Aerosol and Radiation Mission  
T. Wehr, P. Ingmann, M. Eisinger et al.

SnowScat, X- to KU-Band Scatterometer Development  
A. Wiesmann, C. Werner, T. Stroazzi et al.
**Dragon**

Satellite Monitoring of Urbanization in China for Sustainable Development: Preliminary Results  
*Y. Ban, P. Gamba, P. Gong & P. Du*

A Multiscale Approach for Semi-Automatic Comparison Assessment of Large Scale Forest Maps  
*R. Leiterer, J. Reiche, O. Cartus et al.*

Progress Toward Demonstrating SAR Monitoring of Chinese Seas  
*W. Huang, J. Johannessen, W. Alpers & J. Yang*

Validation Campaigns for Sea Surface Wind and Wind Profile by Ground-Based Doppler Wind Lidar  
*Z. Liu, S. Wu, X. Song et al.*

Forest Dragon 2: Large-Area Forest Growing Stock Volume Mapping in China, Using Spaceborn Radar  
*J. Reiche, R. Leiterer, O. Cartus et al.*

An Improvement for the Unsupervised Wishart Freeman Classification with Fully Polarimetric SAR Data  
*F. Cao, E. Pottier & W. Hong*

Evaluation of Soil Moisture Estimation in Vegetated Areas Using Compact Polarimetry  
*J. Yan, L. Chen, Q. Yin et al.*

DEM Generation Using Single Pass Polarimetric SAR Data  
*Y. Li, W. Hong, E. Pottier et al.*

**EO Quantification of Ecosystems**

Accounting for Nature – The Case for Corporate Ecosystem Valuation  
*M. Kallesoe*

Earth Observation Data for Mapping and Evaluation of Ecosystem Services to Improve Human Livelihoods and Conserve Species  
*A.C. Shapiro & N. Bhagabati*

EO Underpinning the Quality of Ecosystem Services with Geospatial Data – The Case of Sustainable Forest Management  
*C. Crosthwaite Eyre*

**Carbon Cycle**

Monitoring Soil and Vegetation Fluxes of Carbon and Water at the Global Scale: Towards a GMES Service  
*J.-C. Calvet, C. Albergel, G. Balsamo et al.*

Can Satellite Sensors be Used to Estimate Surface Water CO₂ in the Southern Polar Ocean?  
*M. Chierici, A. Fransson, S. Signorini & A. Olsen*

**Forestry**

MERIS MTCI for Forest Phenology and Phenology-Based Classification  
*C. Jeganathan, J. Dash & P.M. Atkinson*
Global Vegetation & Bio-Geophysical Products

Global Changes in Biosphere Vegetation Dynamics Using MERIS Data
*N. Gobron, A. Belward, B. Pinty et al.*

Monitoring Vegetation Using DOAS Satellite Observations Based on New Reference Data
*E. Eigemeier, S. Beirle, T. Marbach et al.*

On a Methodology to Extract a Start of Season Metric from Time Series of Reduced Resolution MERIS Global Vegetation Index Data
*B. O'Connor, N. Dwyer & F. Cawkwell*

Turbulent Flux Partitioning from Local to Meso Scale over High Elevation Arid Regions of China
*J. Colin, M. Menenti, R. Faivre et al.*

Exploiting Surface Albedo Products: Examples of Anticipated Downstream Applications from the GlobAlbedo Project
*B. Pinty, I. Andreadakis, M. Clerici et al.*

ALANIS: A Multi-Mission Atmosphere-Land Interaction Study over Boreal Eurasia
*M. Marconcini, D. Fernàndez-Prieto & A. Reissell*

MERIS fAPAR as a Drought Indicator: Performance in Different Contexts
*S. Rossi, S. Niemeyer & N. Gobron*

Empirical and Statistical Approaches for the Improved Retrieval of Chlorophyll and LAI from Sentinel-2 Data
*J. Verrelst, L. Alonso, G. Camps-Valls et al.*

Soil Moisture & Hydrology

Adaptive Algorithm for Soil Moisture Retrieval in Agricultural and Mountainous Areas with High Resolution ASAR Images
*C. Notarnicola, S. Paloscia, S. Pettinato et al.*

Merging Active and Passive Microwave Soil Moisture Data to Construct Long-Term Time Series in Support of Climate Studies
*W. Dorigo, Y. Liu, R. Parinussa et al.*

Accuracy and Stability Requirements of ERS and MetOp Scatterometer Soil Moisture for Climate Change Assessment
*Z. Bartalis, W. Wagner, W. Dorigo & V. Naeimi*

ASCAT- Envisat ASAR Downscaled Soil Moisture Product: Soil Wetness Index Retrieval over Luxembourg
*S. Heitz, P. Matgen, S. Hasenauer et al.*
Wetlands

Characterizing Status of Selected Ecosystems Using Optical and Microwave Remote Sensing Data
K. Dabrowska-Zielinska, M. Budzynska, W. Kowalik et al.

Monitoring Temporal Evolution of the Presence Intermediate Host of the Schistosomiasis and its Risk Transmission Based on Dragon Times Series in Poyang Lake Area, Jiangxi Province, P.R. China
T. Marié, X. Lai, C. Huber et al.

Object Oriented Extraction of Wetlands Based on Synergistic Use of Multispectral and Microwave Remote Sensing Data
R. Leiterer, J. Kropacek, F. Chen et al.

Remote Sensing for Hydrological Modeling of Seasonal Wetlands – Concepts and Applications
P. Meier, H. Wang, C. Milzow & W. Kinzelbach

DEM, Geology & Geomorphology

ACE2: The New Global Digital Elevation Model
R.G. Smith, P.A.M. Berry & J. Benveniste

Validation of ERS–Envisat Cross-Interferometry DEMS over New Orleans
U. Wegmüller, M. Santoro, C. Werner & Z. Lu

Accuracy of Digital Terrain Models for the Mt. Everest Region
Based on Corona and Cartosat-1 Data
T. Pieczonka, T. Bolch & M. Buchroithner

Cryosphere & Climate

Elevation Time Series over Greenland Ice Sheet from Satellite Radar Altimetry
K. Khvorostovsky

First Results from the CryoClim System for Cryospheric Climate Monitoring
R. Solberg, B. Wangensteen, T. Kristoffersen et al.

Ocean Circulation & Currents

ASAR Surface Velocity Retrievals in the Northeast Atlantic
M.W. Hansen, K.-F. Dagestad, J.A. Johannessen et al.

Status Report on Current Measurements by TerraSAR-X Along-Track Interferometric SAR
R. Romeiser, H. Runge, S. Suchandt & H. Graber

InfoceanDesk: Two Demonstrators of GMES Downstream Commercial Applications
S. Baudel, H. Etienne, A. Mangin et al.

The Changing Earth Science Network

The Changing Earth Science Network – Projects and Results from the First Call
S. Dransfeld, D. Fernandez, M. Doron et al.
Open Ocean and Coastal CO\textsubscript{2} Fluxes from Envisat in Support of Global Carbon Cycle Monitoring (OC-Flux) – An ESA STSE Project
\textit{J.D. Shutler, D. Woolf, N. Hardman-Mountford et al.}

Clouds and Aerosol Radiative Interaction and Forcing Initiative
\textit{M. De Graaf, P. Stammes, L.G. Tilstra & D.P. Donovan}

Sounding the Upper Troposphere-Lower Stratosphere with Satellite Measurements
\textit{E. Papandrea, E. Arnone, E. Castelli & M. Premuda}

CARBONGASES: Retrieval and Analysis of Carbon Dioxide and Methane Greenhouse Gases from SCIAMACHY on Envisat
\textit{O. Schneising, M. Buchwitz, M. Reuter et al.}

Diagnostics of Mixing and Transport in the Atmospheric Interfaces: The Project Dimitri
\textit{E. Palazzi & F. Fierli}

Burn Severity Estimation Using MERIS Full Resolution Imagery
\textit{P. Oliva & A. De Santis}

\textbf{A Multi-Mission & QA4EO}

An Overview of Current and Future ESA Activities Related to QA4EO
\textit{G. Ottavianelli, M. Davidson, F. Gascon \textit{et al.}}

Quality Assurance Framework for Earth Observations for Atmospheric Composition Measurements
\textit{E. Kwiatkowska, T. Fehr, R. Gessner \textit{et al.}}

Products Definition and Determining Uncertainties; Sentinel-3 Optical Level 2 Prototype Processor
\textit{S. Lavender, O.H. Fanton d’Andon, S. Emsley \textit{et al.}}

\textbf{Sentinel-1}

The GMES Sentinels Flight Operations Segment
\textit{P. Bargellini, P.P. Emanuelli, I. Shurmer \textit{et al.}}

Envisat AP Data Used as Preparation for Sentinel-1
\textit{T.N. Hannevik & R.B. Olsen}

\textbf{CryoSat}

Launch and Early Orbit Operations for CryoSat-2
\textit{N. Mardle & F. Marchese}

Airborne Campaigns for CryoSat Pre-Launch Calibration and Validation
\textit{S.M. Hvidegaard, R. Forsberg, H. Skourup & L. Stenseng}

SIRAL 2 on CryoSat 2 First Results in Orbit
\textit{L. Rey, L. Rys & R. Cullen}

CryoSat SAR-Mode Looks Revisited
\textit{R.K. Raney}
Coastal Zones

MERIS/Envisat-Images for Modeling of Chlorophyll Concentration Fields for Novosibirks Reservoir (South West Siberia)
N. Kovalevskaya, V. Kirillov, T. Kirillova & O. Lovtskaya

Inner-Shelf Response to an Early Spring Upwelling Event off NW Portugal
P.B. Oliveira, J.D. Lencart e Silva, M. Maria-Almeida et al.

Estimation of the Diffuse Attenuation Coefficient KdPAR Using MERIS Satellite Reflectances for European Coastal Waters
B. Saulquin, A. Hamdi, J. Populus et al.

Observation of Multi-Year Spatial Dynamics of Biogeochemical Variables in the Bay of Biscay from Space
D. Pozdnyakov, E. Morozov, L. Pettersson & V. Sychev

Mapping Coral-Algal Dynamics in a Seasonal Upwelling Area Using Spaceborne High Resolution Sensors
K. Pauly, R. Goossens & O. De Clerck

Land Cover & Land Use

GlobCover 2009
O. Arino, J. Ramos Perez, V. Kalogirou et al.

GlobCorine – A Joint EEA-ESA Project for Operational Land Cover and Land Use Mapping at Pan-European Scale
S. Bontemps, P. Defourny, E. Van Bogaert et al.

Accuracy Assessment of Global Land Cover Maps – Lessons Learnt from the GlobCover and GlobCorine Experiences
P. Defourny, S. Bontemps, V. Obsomer et al.

GlobCover Map – Can we go from Global to National Scale?
M. Caetano, H. Carrão, P. Sarmento & V. Nunes

DUE Diversity 2010 – Biodiversity 2010 Target Assessment
S. Kleeschulte, U. Gangkofner & M. Paganini

Progress in Spatial Analysis and Fusion of Remote Sensing Satellite Data for Generating High-Level Semantic Geo-Information in Support of GMES Applications
A. Popescu, C. Vadiu, D. Bratasanu et al.

The Use of CHRIS/PROBA Data to Assist Wheat Growth Modelling
N. Oppelt

The Potential of MODIS Time Series Metrics for Bottom-Up Vegetation Mapping in a Semi-Arid Savanna Ecosystem in Namibia
C. Hüttich, B.J. Strohbach, M. Herold et al.

DUE SEVESEO EO-Based Services in Support to Industrial and Technological Risk Management
F. Lefebre, N. Sneets, T. Op ’t Eyndt et al.
Aerosols

Determination of Trends in Aerosol Optical Thickness from MERIS and SeaWiFS Observations

W. von Hoyningen-Huene, J. Yoon, M. Vountas et al.

Greenhouse Gasses

An Integrated Approach to the Remote Sensing of Methane with SCIAMACHY, IASI and AATSR

G. Miles, R. Siddans, A. Waterfall & B. Kerridge

A Critical Comparison of GOSAT CO₂ and CH₄ Observations with the GEOS-Chem Transport Model

R. Parker, H. Boesch, A. Cogan et al.

Retrieval of Greenhouse Gas Profiles from SCIAMACHY Solar Occultation Measurements with Onion Peeling DOAS

S. Noël, K. Bramstedt, M. Reuter et al.

Land Altimetry

Rainforest Canopy Mapping - A Unique Snapshot from the new GDEM, ACE2

R.G. Smith & P.A.M. Berry

Global Inland Water Monitoring from Satellite Radar Altimetry – A Glimpse into the Future

P.A.M. Berry, S. Witheridge & R.G. Smith

Analysis of Envisat RA-2 Burst Echoes over Lake Surfaces

S. Witheridge, P.A.M. Berry & R.G. Smith

Model of Flood Wave Propagation on the Caspian Sea and its Verification Based on the Satellite Altimetry Data

S.A. Lebedev

Coastal Altimetry

Validation of Coastal Altimetry Data Along the West Iberian Coast

S.M. Barbosa, M.J. Fernandes, C. Lazaro et al.

Vertical Land Movement for the Italian Coasts by Altimetric and Tide Gauges Measurements

L. Tunini, C. Braitenberg, R. Ricker et al.

Long-Term Sea Level Change from Satellite Altimetry and Tide Gauges in the Indonesian Region

S.L. Nurmaulia, L. Fenoglio-Marc & M. Becker

Third Party Missions

A Small Satellite Mission Demonstrating Multi-Angular Hyperspectral Applications over a Period of Nine Years

M. Cutter

Exploitation of COSMO-SkyMed Mission: Preliminary Results Using the One-Day Configuration

A. Coletta, M. Libera Battagliere, V. Bellifemine et al.
e-GEOS, the Multimission Hub for VHR SAR and Optical Satellite Images
A. Oddone

RapidEye Library (Archive)
F. Jung-Rothenhausler

Contribution of the Indian IRS Program to European Data Requirements Through Euromap
F. Barner, R. Haydn, H. Maass & M.L.N. Remilla

Spanish Earth Observation Satellite System
A. Borges, F. Cerezo, M. M. Fernández et al.

Agriculture

Progress in the Understanding of Narrow Directional Scattering over Agriculatural Fields
U. Wegmüller, M. Santoro, F. Mattia et al.

DeCOVER 2 – The German GMES Extension to Support Land Cover Data Systems: Status and Outlook
O. Buck

Added Value Products Derived from a MERIS Near Real Time Processing Line
H. Poilvé, C. Mathian, P. Cayrol et al.

A MODIS-Based Approach for Crop Yield Prediction in Irrigation Regions of Central Asia Using Light Use Efficiency Modeling
S. Fritsch, C. Conrad & S. Dech

Land Surface Temperature

Trends in ERS and Envisat (A)ATSR Global Land Surface Temperature Data Since 1991
C. Kogler, S. Pinnock, O. Arino et al.

Validation of Land Surface Temperatures Derived from the Envisat/Advanced Along-Track Scanning Radiometer
C. Coll, E. Valor, J.M. Galve et al.

Urban Heat Islands and Urban Thermography
P. Manunta, G. Ceriola, I.A. Daglis et al.

Global Climate Change

Building Saliency, Legitimacy, and Credibility Towards Operational Global and Regional Land Cover Observations and Assessments in the Context of GEO and Observing Essential Climate Variables (ECV’s)
M. Herold, L. Kooistra, P. Defourny & C. Schmullius

Global Fire Trends from Satellite ATSR Instrument Series
O. Arino, S. Casadio & D. Serpe

Oil Spills

Identification of Oil Spills by Satellite
O. Trieschmann, L. Bal, M. Chintoan-Uta et al.
Integration of Remote Sensing Data into the BSH Oil Spill Drift Model within the German DeMarine-Environment Project
C. Kuebert, B. Baschek, F. Janssen & S. Dick

Sentinel-2/3

A Novel Sensor-Independent Partially-Supervised Approach to Targeted Change Detection: Application to Simulated Sentinel-2 Data
D. Fernández-Prieto & M. Marconcini

Snow

ESA DUE Globsnow - Global Snow Database for Climate Research
K. Luojus, J. Pulliainen, M. Takala et al.

A New Global Snow Extent Product
R. Solberg, B. Wangensteen, J. Amlien et al.

The Retrieval of Snow Grain Size from Space Using MERIS and AATSR Top-of-Atmosphere Spectral Reflectance Measurements
A. Kokhanovsky, V. Rozanov, O. Krüger et al.

An Operational Algorithm for Snow Cover Mapping by Using Optical and SAR Data
S. Pettinato, E. Santi, M. Brogioni et al.

Snow Grain Size Variability Along the JASE 2007/2008 Traverse Route in Dronning Maud Land, Antarctica, and its Relation to MOA NDSI Index, MERIS and MODIS Satellite Data
S. Ingvander, I.A. Brown & P. Jansson

Monitoring of the Snow Coverage and its Relation to Vegetation and Growing Seasons on Svalbard Using Envisat ASAR and Terra MODIS Data
E. Malnes, S.R. Karlsen, B. Johansen et al.

Polar View Snow Service – Operational Snow Cover Mapping for Downstream Runoff Modeling and Hydropower Predictions
H. Bach, F. Appel, F. Rust & W. Mauser

Snow Services from GSE Polar View – Five Winters of Operational Service and the Extension Towards a Pan-European Service
F. Appel, H. Bach, R. Hall & S. Metsamaki

Land Cover & Land Use

The GOFC-GOLD/CEOS Land Cover Harmonization and Validation Initiative: Technical Design and Implementation
M. Herold, C. Woodcock, S. Stehman et al.

Estimation of Land Surface Energy Balance Using Satellite Data of Spatial Reduced Resolution
R. Vintilă, C. Radnea, E. Savin & V. Poenaru

Monitoring of Land Cover Change Using SAR and Optical Data from the ESA Rolling Archives
M. Borgeaud, D. Palaz & P. Deléglise

Monitoring Surface Parameters over a Sahelian Region with ASAR Alternate Polarization Data
P.-L. Frison, F. Baup, E. Mougin et al.
Support Vector Machines for Multitemporal and Multisensor Change Detection in a Mining Area
A. Hecheltjen, B. Waske, F. Thonfeld et al.

SAR & Atmosphere

On the Tropospheric Water Vapour Mapping: GPS, SAR Interferometry and Numerical Forecasting Models
P. Mateus, G. Nico, R. Tomé et al.

Estimation of Integrated Water Vapour (IWV) from SAR Interferometry Aided by GPS IWV Measurements
M. Santoro, U. Wegmüller, J. Morland & C. Mätzler

Atmospheric Phase Shift Identification for Individual Dates Based on Multi-Reference DInSAR or PSI Data
M. Schäfer & W. Hannemann

On the Exploitation of Meteo Information for Atmospheric Phase Screen Compensation in GB-SAR Interferometry
A. Monti Guarnieri, L. Iannini & D. Giudici

Orbits

The Benefits of New Improved Orbits of ERS Satellites for Altimetry and InSAR Applications
S. Rudenko, J.-C. Raimondo, T. Schöne et al.

Envisat Radar Altimeter Calibration by Multi-Mission Crossover Analysis
D. Dettmering & W. Bosch

Data Assimilation

Assimilation of MERIS FAPAR into a Terrestrial Vegetation Model and Mission Design
T. Kaminski, W. Knorr, M. Scholze et al.

Joint State-Parameter Estimation in a 3-D Coupled Physical-Ecosystem Model of the North Atlantic: Assimilation of SeaWiFs Data with a Non-Gaussian Extension of an ESRF
E. Simon & L. Bertino

The NILU SURFEX-EnKF Land Data Assimilation System
W. Lahoz, T. Svendby, S.-E. Walker & J.-F. Mahfouf

Data Mining

Spatio-Temporal Mining of PolSAR Satellite Image Time Series
A. Julea, N. Méger, E. Trouvé et al.

KEO: A Multi-Paradigm EO Archive Search System
M. Quartulli, A. Valente, C. Rosati et al.

Mining Satellite Image Time Series
M. Quartulli, A. Valente, C. Rosati et al.

Ocean Altimetry

The Absolute Dynamic Ocean Topography (ADOT) – Estimation and Application
W. Bosch, R. Savcenko & R. Teixera Luz
Global Sea-Level Rise from Satellite Altimetry: The Tale of the Mean
*S.M. Barbosa & J.A.O. Matos*

Use of Envisat RA2 Sea Level Observations in the Bluelink Ocean Modelling System
*D.A. Griffin, P.R. Oke & M.L. Cahill*

Estimating the Indo-Atlantic Salt Flux from ARGO and Altimetry
*G.D. Quartly, J. Georgiou & M.A. Srokosz*

**Posters**

**ALT Cal/Val**

Seasonal Analysis of Envisat RA-2 Tracker Performance
*S. Baker, A. Muir & J. Gaudelli*

Calibration of Satellite Radar Altimeters at Gavdos Cal/Val Facility Using Three Different Methodologies
*S.P. Mertikas, A. Daskalakis, W. Hausleitner et al.*

Envisat RA2 Dry Troposphere Correction for Ice Sheets
*F. Blarel, S. Parouty & F. Remy*

Validation of SAR-Mode Altimeter Return Waveform Model for Sentinel 3
*S. Dinardo, J. Lambert, B.M. Lucas & J. Benveniste*

Validation of Envisat Radar Altimetry within the OSCAR Project
*F. Blarel, B. Legresy & F. Remy*

**Atmos Cal/Val**

NDACC Network Based Study of the Consistency of Ozone Profile Data from Envisat, Third-Party Missions and Historical Satellites
*S. Vandenbussche, J.-C. Lambert, C. De Clercq et al.*

Long-Term Multi-Mission Validation of Ozone and Temperature Profiles by the Validation with Lidar (VALID) Project

Sensitivity Analysis for SCIAMACHY Ozone Limb Retrieval
*S.M. Hrechanyy, M. Meringer, B. Aberle et al.*

Eight Years of MIPAS Measurements
*P. Raspollini, B. Carli, S. Ceccherini et al.*

The Status of the SCIAMACHY Line-of-Sight Pointing Knowledge
*M. Gottwald, E. Krieg, S. Slijkhuis et al.*

XCO2 SCIAMACHY Total Column and CO2 Ground Inter-Comparison Results in the Spanish Plateau
*M.L. Sánchez, I.A. Pérez, M. Buchwitz & M.A. Garcia*

MIPAS Level 1B Algorithm Evolutions
*G. Perron, G. Aubertin, R. Desbiens et al.*
Intercomparison of Near Infrared SCIAMACHY and Thermal Infrared Nadir Vertical Column Densities
F. Schreier, S. Gimeno-García, G. Lichtenberg & M. Hess

Preparing SCIAMACHY for the Mission Extension Phase
M. Gottwald, E. Krieg, G. Lichtenberg et al.

Comparison between REFIR-P AD and GERB Observations of the Outgoing Longwave Radiation Flux
L. Palchetti, C. Belotti, G. Bianchini et al.

Earthquakes & Tectonics

Assessing Earthquake Damage from Post-Event VHR Radar Images Only: A Preliminary Study on COSMO/SkyMed Images from the L’aquila, 6th April 2009 Earthquake
D. Polli & F. Dell’Acqua

Coseismic Deformation Detection of the 1997 Mani Earthquake Using ERS SAR Data
X. Wang, L. Tang, C. Li et al.

Exploiting Satellite Data for Large-Scale Assessment of Seismic Vulnerability in Human Settlement Areas (GEO DI-09-01A)
D. Polli, F. Dell’Acqua & P. Gamba

Bayesian Inversion of Wrapped InSAR Data for Geophysical Parameter Estimation
A. Hooper

Application of C-Band Interferometry to Investigate Crustal Unloading Around the Dead Sea
M. Westerhaus, S. Kuny, A. Schenk et al.

Detection of Earthquake Precursors by Satellite Methods and their Verification Using the Laser Strainmeter Systems

Forestry & Biomass

Examination of Summer- and Winter ALOS PALSAR Interferometric Coherence and Phase in Siberia
C. Thiel & C. Schmullius

Forest Stem Volume Estimation with Multi-Parameters ALOS PALSAR and Forest Inventory Data
Y. Yang, E. Chen, Z. Li & F. Ling

Classification of Fuel Types Using Envisat Data
E. Wozniak & S. Nasilowska

Development of a Methodology for Mapping Forest Height and Biomass Using Satellite Based SAR and Lidar Data
C. Hilbert & C. Schmullius

Spectrazonal Satellite Images in Estimation of Climatic Trends of Forest Vegetation on Subpolar Ural West Slopes
V.V. Elsakov & I.O. Murashak
Forest Canopy LAI Estimation Using Quad-Polarization RADARSAT-2 Data in Hilly Areas
Q. He, E. Chen & F. Ling

SAR Analysis in Tropical Forest Environments to Support FAO's Next Global Forest Resources Assessment
R. Knuth, R. Eckardt, N. Richter & C. Schmullius

Hazards Assessment & Mapping

Deformation Monitoring Using PS InSAR in the Areas Suspected for Deformation near the Open-Mine Pits and on Waste Dumps
I. Hlaváčová, L. Halounová, B. Knechtlová & K. Svobodová

Monitoring the Subsidence of Jing-Jin Intercity High Railway Roadbed by the Advanced Network MB-DInSAR
X. Tang, Z. Hong, C. Wang, & T. Li

Radar Interferometry Techniques for Monitoring Subsidence Induced by Excessive Groundwater Pumping in Crete, Greece
S.P. Mertikas, E.S. Papadaki & Ev. Paleologos

Rapid Fire Damage Assessment by Using a Synergic Approach with Radar and Optical Data
E.G. Cadau, A. Burini, C. Putignano et al.

Landslide Phenomena in Sevan National Park - Armenia
A.D. Lazarov, D. Minchev, G. Aleksanyan & M. Ilieva

C- & X-Band SAR Interferometric Analysis over Alpine and Apennine Regions
F. Bovenga, D.O. Nitti, R. Nutricato & M.T. Chiaradia

Monitoring Geomorphologic Changes and Ground Instability Using SAR Interferometric Techniques
V. Poncos, F. Serban, D. Teleaga et al.

Anthropogenic Subsidence Revealed by MTI in an Area of Active Tectonics: Granada Basin
J.J. Sousa, A.M. Ruiz, A.J. Hooper et al.

IDP Camp and Reconstruction Monitoring Experience at SERTIT
S. Clandillon, B. Allenbach, S. Battistion et al.

Monitoring of Fast Subsidence in a Mining Area of Northern Moravia, Czech Republic
M. Lazecký, E. Jiránková & D. Böhmová

Measuring Subsidence in the Centre of Lisbon with Persistent Scatterers Interferometry (PSI), CGPS and Levelling Surveys
S. Heleno, M.J. Henriques, A.P. Falcão et al.

Landslide Susceptibility Mapping Based on Persistent Scatterers Inventories

Detection of Ground Surface Displacements in Area of Intensive Oil and Gas Production by InSAR Data
A.V. Filatov & A.V. Yevtushkin
Ocean Color

Decadal Change of the Nordic Seas Coastal Waters Quality
A. Korosov & L. Pettersson

$CO_2$ Fluxes: The Upwelling Systems of South America & South Africa
I. Karagali, M. Badger & L.L. Sørensen

Downwelling Solar Irradiance as a Critical Parameter for In-Situ Measurements in the MERMAID Database
K. Barker, J.-P. Huot, G. Moore et al.

Absorption Coefficients of Particulate Matter off the Southwest Coast of Europe:
A Contribution to Validation of the MERIS Sensor
P. Goela, J. Icely, S. Cristina & A. Newton

Vicarious Adjustment of MERIS Reflectances Using an Inverse Technique
M.E. McCulloch, K.L. Barker & G. Zibordi

Prediction of Sky Dome Radiance to Improve Computation of In-Situ Water-Reflectancies in MERIS Matchups
F. Zagolski & R. Santer

Integrated Monitoring and Forecasting of Harmful Algae Bloom Events in Coastal Waters
L.H. Pettersson, A. Korosov, T. Hamre & A. Samuelsen

Integrating Optical Remote Data into Passive Microwave Remote Sensing of the Ocean
D.M. Ermakov, M.T. Smirnov & V.T. Polyakov

Operational Nowcasting of Algal Blooms in the Baltic Sea Using MERIS and MODIS
M. Hansson, P. Pemberton, B. Håkansson et al.

OPT/IR Cal/Val

Cross-Calibration of CBERS-02B/CCD Against Terra/MODIS and SPOT-4/HRVIR1
L. Ma, L. Tang, C. Li et al.

Remote Sensing of Lakes: The Main Results after Eight Years of MELINOS Project
C. Giardino & M. Bresciani

Validation of MERIS Satellite Products in Oceanic Waters off Cape Sagres on the South-West Coast of Portugal
S. Cristina, J. Icely, P. Goela & A. Newton

A Comparison Between SST and AOT Derived from AVHRR and MODIS Data in the Frame of the CREPAD Program

Field Inter-Comparison and Validation of In-Water Radiometers and Sun Photometers for MERIS Validation
G.F. Moore, J.D. Icely & S. Kratzer

OPT/IR New Methods & Products

Automatic Matching of Landsat Image Series to High Resolution Orthorectified Imagery
X. Pons, G. Moré & L. Pesquer
Gridding Artifacts on Envisat/MERIS Temporal Series
L. Gómez-Chova, R. Zurita-Milla, L. Alonso et al.

Fully Automated and Coherent Radiometric (ATM+TOP) Correction of Landsat TM Images through Pseudoinvariant Areas
X. Pons, J. Cristóbal, L. Pesquer et al.

Potentials for Indication of Potentially Harmful Toxic Algal Blooms Using PROBA1-CHRIS Hyperspectral Imagery – A Case Study in Burkina Faso
T. Beiermann

Cinclus: An Instrument for the Remote Sensing of Inland Water Quality
A. Ruiz-Verdú, E. de Miguel, C. Robles-González & A. Fernández-Renau

Evaluation of MERIS Water Quality Products for Inland Waters at Itumbiara Reservoir, Brazil
R. Fernandes Figueira Nascimento, M. Kampel, J.L. Stech & E. Alcântara

Influence of Spatial Resolution on Water Bodies Detection and Relationship between Water Extent and Water Level, Case of Poyang Lake, (P.R. China)
C. Huber, X. Lai, C. Uribe et al.

Determining the Hydrological Benefits of Clearing Invasive Alien Vegetation on the Agulhas Plain, South Africa
M.S. Nowell, D.C. Le Maitre, K.J. Esler & J.M. Kalwij

V.M. Mantas & A.J.S.C. Pereira

SAR Methods

Phase Requirements for the Validation of Phase Preserving Processors for Spaceborne SAR Systems
M. Belotti, D. D’Aria, N. Miranda et al.

A New Algorithm for Descalloping ScanSAR Images by Post Processing
R. Romeiser, J. Horstmann & H. Graber

SAR Waves

Comparative Analysis of Internal Waves Surface Manifestations Observed by Envisat ASAR in Different Non-Tidal Seas
M. Mityagina & O. Lavrova

SAR Winds

Using SAR and LAM Wind Fields to Investigate the Effects of Land/Atmosphere Interaction
S. Zecchetto, F. De Biasio, M.M. Miglietta & W. Biamino

Development of the Multi-Sensor Approach for Polar Low Study
E. Zabolotskikh, L. Bobylev, L. Mitnik et al.
**Sea Surface Temperature**

A Time Series of Mean Global Sea Surface Temperature from the Along-Track Scanning Radiometers  
*K.L. Veal, G. Corlett, J. Remedios & D. Llewellyn-Jones*

Seasonal Distribution of Sea Surface Temperature for the Aegean Sea During 2005 – 2008  
*S. Varnava, K. Topouzelis & N. Soulakellis*

Changing Seasonality of AVHRR Sea Surface Temperature Along the West Iberian Coast  
*S.M. Barbosa, C. Lazaro, M.J. Fernandes & A. Ferreira*

Medspiration: Toward the Sustained Delivery of Satellite SST Products and Services over Regional Seas  
*J.-F. Piollé, E. Autret, O. Arino et al.*

Summer North Atlantic Oscillation: Decadal Change, Impact, and Possible Mechanisms  
*J. Sun, H. Wang & W. Yuan*

**Sea Ice**

Identification and Tracking of Ice Objects in the Fram Strait Using the Itsari Algorithm  
*J. Hall, G. Bigg & R. Hall*

Validation and Operational Measurements with SUSIE – A SAR Ice-Motion Processing Chain Developed within PROMICE (Programme for Monitoring of Greenland Ice-Sheet)  
*J.P. Merryman Boncori, J. Dall, A.P. Ahlstrøm & S. Bech Andersen*

Comparison of Envisat ASAR and Submarine Sea Ice Thickness Statistics  
*N.E. Hughes, J. Rodrigues & P. Wadhams*

Visualization of Arctic Landscapes in the Geoinformation System  
*E.A. Panidi, V.Yu. Tsepelev & A.A. Bobkov*

Sea Ice Motion from Space: An Alternative Method and its Validation in the Arctic  
*T. Lavergne, S. Eastwood, J. Roërs et al.*

An Ice-Ocean Discrimination Algorithm for Dual-Polarized Synthetic Aperture Radar Imagery  
*J. Haarpaintner*

Monitoring of Sea Ice Drift and Deformation with SAR Satellite Data of Different Resolution  
*T. Hollands & W. Dierking*

Sea Ice Passive Microwave Algorithms and SAR Validation  
*O.M. Johannessen & N. Ivanova*

MyOcean SIW TAC, Sea Ice Products and Service  
*L.-A. Breivik, F. Ardhuin, F. Dinessen et al.*

**Tropospheric NO₂ & O₃**

The DUE Innovators II APOLLO Project: Monitoring Atmospheric POLLution with Earth Observations  
*P. Sellitto, F. Del Frate, A. Di Noia et al.*
Volatile Organic Compounds

Relation between CO and CO\textsubscript{2}, from MOPITT and SCIAMACHY, and Large Fires Emissions in the Most Affected Regions of the World
A. Calle, J.-L. Casanova, J. Sanz & P. Salvador

Volcanoes

Surface Deformation Analysis of Mauna Loa and Kilauea Volcanoes Through a Combined ScanSAR-to-StripMap InSAR Analysis
A. Pepe, A. Bertran Ortiz, R. Lanari et al.

Waves & Winds from Altimetry

Significant Wave Height Merged from Multiple Satellite Altimeters
J. Yang, X. Chen, Q. Xiao et al.

Status of Envisat Fast Delivery Wind and Wave Products
S. Abdalla, P.A.E.M. Janssen & J.-R. Bidlot

Clouds

Stereo Motion Vectors from ATSR-2 and AATSR
D. Fisher & J.-P. Muller

Collocating Satellite-Based Radar and Radiometer Measurements – Methodology and Usage Examples
G. Holl, S.A. Buehler, B. Rydberg & C. Jiménez

The Retrieval and Validation of Cloud Parameters Derived from GOME-1 Data
L. Lelli, A.A. Kokhanovsky, M. Vountas et al.

The Inter-Comparison of Cloud Parameters Derived from SCIAMACHY and AATSR Data
C. Martinecz, A.A. Kokhanovsky, M. Vountas et al.

K. Peters, J. Quaas, I. Sandu et al.

Forestry

Clear-Cut Detection Using Aerial and Satellite Images
M. Molinier, T. Häme & H. Astola

Future Earth Explorers

Tomographic Retrievals for High Spatial Resolution Measurements of the PREMIER Infrared Limb Sounder
L. Hoffmann & M. Riese

Glaciology

Near Real-Time Monitoring of Glacial Lake Imja (Khumbu-Everest Region)
J. Lichtenegger, D. RajGurung, P.K. Mool & J.-C. Bigot
Non-Gaussian Clustering of SAR Images for Glacier Change Detection
*V. Akbari, A. Doulgeris & T. Eltoft*

Greenland Mass Balance Estimation from Satellite Gravity Measurements
*G. Joodaki & H. Nahavandchi*

Observability of Regional Cryosphere Signals with Satellite Gravity Missions of Grace-Type
*K. Bentel & C. Gerlach*

Multi-Temporal, Multi-Sensor Investigations of Supra-Glacial Lakes on the Greenland Ice Sheet
*A.M. Johansson, I.A. Brown & P. Jansson*

**Global Vegetation & Bio-Geophysical Products**

Phenological Trends of Vegetation in Southern England from Envisat MERIS Terrestrial Chlorophyll Index (MTCI) Data
*D. Boyd, S. Almmond, J. Dash et al.*

**GOCE**

Gravity Gradient Expansion into Spherical Harmonics
*C. Gruber, O. Abrykosov & K. Snopek*

Validation of GOCE with Terrestrial Gravity Data in Norway
*Ch. Gerlach & B.R. Pettersen*

The End-to-End System Simulator of GOCE
*G. Catastini, S. Cesare, M. Dumontel et al.*

Performance Analysis of GOCE Gradiometer Measurements
*W. Yi, M. Murböck, R. Rummel & T. Gruber*

Refinement of a Regional Earth Gravity Field Model Using a Combination of the GOCE Satellite Gravity Gradiometry Data and the Terrestrial Gravity Data
*J. Janák, F. Wild-Pfeiffer, Z. Fašková & K. Mikula*

Ice Mass Change Versus Gravity-Local Models and GOCE's Contribution
*C. Gisinger, F. Heuberger, D. Rieser et al.*

RIFUGIO – Rigorous Fusion of Gravity Field into Stationary Ocean Models
*G. Freiwald, M. Losch, W.-D. Schuh & S. Becker*

Fast and Robust Method for the Computation of Spherical Harmonic Coefficients from SST Data of GOCE Satellite
*F. Touati, M. Idres & S. Kahlouche*

**Permafrost**

The Lena River Delta, Arctic Siberia: An Arctic Ground Data Observatory of the DUE Permafrost Remote Sensing Project
*B. Heim, A. Bartsch, J. Boike et al.*

Synergistic Analysis of Coarse Resolution Vegetation and Land Cover Data for Permafrost Monitoring
*M. Urban, M. Herold, S. Hese et al.*
Study of Thermokarst Lakes Areas Changes in West-Siberian Permafrost Using ERS-2/SAR
V. Kopylov, N. Bryksina, V. Polishchuk & Y. Polishchuk

Polarimetry & Polinsar

Application of Genetic Algorithm and Multilayer Neural Networks in Classification of Fully Polarimetric SAR Images
I. Entezari, M. Motagh & B. Mansouri

An Improved Repeat-Pass PolInSAR Tree Height Inversion Algorithm Based on Three-Stage Method
J. Chen, H. Zhang & C. Wang

POLSAR Images Filtering by Wavelets Transform
S. Boutarfa, Y. Smara & L. Bouchemakh

Persistent Scatterers Interferometry

Evaluation of MTI Feasibility for Monitoring Millimetric Deformation in Montainous Areas
J.J. Sousa, A.M. Ruiz, A.J. Hooper et al.

SMOS

The SMOS Brightness Temperature Ocean Monitoring: Preliminary Results

GLOSCAL: In-Situ Datasets and Gridded Fields for Calibration and Validation of SMOS
B. Emilie, F. Gaillard, L. Petit de la Villéon et al.

Uncertainties on the Global Near-Surface Vertical Structure of Salinity
A. Konstantinidou, A. Lopez Aretxabaleta, J. Gourrion & J. Ballabrera-Poy

Validating SMOS on the Wetland Polesie, in Poland

Airborne Campaigns in the Upper Danube Catchment in the Context of the Calibration and Validation of SMOS
J.T. Dall’Amico, F. Schlenz, A. Loew & W. Mauser

SMOS User Support Tools: SMOS-Box and Cal/Val Data Distribution
R. Quast, N. Fomferra, T. Block et al.

L-Band Radiometer Experiment in the SMOS Test Site Upper Danube
F. Schlenz, T. Gebhardt, A. Loew et al.

SMOS Validation Activities at Different Scales in the Skjern River Catchment, Western DK
S. Bircher, J. Balling & N. Skou

Downscaling of SMOS-Derived Soil Moisture During SMOS Calibration/Validation Phase at Remehus Site
M. Piles, A. Camps, M. Vall.llossera et al.

Ocean Salinity Retrieval Approaches for the SMOS Satellite
P. Spurgeon, J. Font, J. Boutin et al.

Use of Satellite Data for Soil Moisture Analysis at ECMWF
P. de Rosnay, J. Muñoz Sabater, G. Balsamo et al.
SMOS Soil Moisture Validation with Dense and Sparse Networks: Early Results
T.J. Jackson, R. Bindlish, M. Cosh & T. Zhao

Improvement of the Empirical Roughness-Induced Emissivity Model for the SMOS Mission
C. Gabaró, A. Turiel, J. Martinez et al.

Analysis of SMOS Brightness Temperatures Obtained from March Through May 2010
J.E. Tenerelli & N. Reul

Measurements of Near-Surface Salinity (0-50 cm) Using Autonomous Drifters
J. Boutin, G. Reverdin, N. Martin et al.

Radiometric Noise and Autocorrelation of Brightness Temperature Residuals Obtained During SMOS Commissioning
I. Meirold-Mautner, J.-L. Vergely, C. Henocq et al.

Sampling Strategy for Soil Moisture Ground Measurements in the Campaigns of 2008 and 2009 at the Valencia Anchor Station (VAS)
M.C. Antolín, C. Millán-Scheiding, E. Carbó & E. López-Baeza

Preliminary Validation of SMOS Products (Levels 3 and 4)
J. Ballabrera, J. Gourrion, A. Turiel et al.

Bridging the Gap between Surface Salinity Satellites: SMOS and Aquarius
A.L. Aretxabaleta, J. Gourrion, J. Ballabrera et al.

Development of an Ensemble Kalman Filter for Land-Surface Data Assimilation of Soil Moisture
M.L. Carrera, S. Belair, B. Bilodeau & S. Solomon

Interpretation of CAROLS L-Band Measurements in the Gulf of Biscay
A. Martin, J. Boutin, D. Hauser et al.

ELBARAI, L-Band Radiometer Systems to be Deployed for SMOS Cal/Val Purposes
A. Wiesmann, C. Werner, M. Schwank et al.

SMOS' Brightness Temperatures Statistical Characterization
M. Talone, J. Gourrion, V. Gonzalez et al.

SMOS and AMSR-E Brightness Temperature Cross-Validation over the Salar de Uyuni: First Results
M.J. Escorihuela, Y.H. Kerr, P. Richaume et al.

One Point Calibration in Interferometric Radiometers: MIRAS/SMOS Preliminary Results
F. Torres, I. Corbella, N. Duffo et al.

Stratospheric Constituents

Bayesian Model Selection and Averaging for Remote Sensing Inverse Problems
M. Laine, J. Tamminen & P. Veefkind

On the Quality of ECC Ozonesondes Data: Improvements of the Ground Based Data for Satellites Validation
R. Stübi, G. Levrat, G. Romanens et al.
First Survey of Measurements of Chemical Changes above Sprite-Producing Thunderstorms
e. Arnone, F. Sào Sabbas, A. Kero et al.

Towards a NNORSY Ozone Profile ECV from European Nadir UV/VIS Measurements
M. Felder, A. Kaifel & R. Huckle

Experience of an External Payload on the ISS: The Solar Payload, Implication for Earth Observations from the ISS
C. Muller, A. Michel & D. Moreau

Variable Tikhonov Regularization in the Retrieval of Atmospheric Profiles from MIPAS Data
L. Sgher & M. Ridolfi

Covariance Matrix and Averaging Kernels for the Levenberg-Marquardt Solution of the Retrieval of Atmospheric Profiles
M. Ridolfi & S. Ceccherini

Medipix/Timepix Cosmic Ray Tracking on BEXUS Stratospheric Balloon Flights
J. Urbar, J. Scheirich, J. Jakubek & R. Svarc

Solar Cycle 23 in SCIAMACHY Mesospheric Chemical Heating Rates
M. Kaufmann, C. Lehmann & M. Riese

Utilization of all Spectral Channels of IASI for the Retrieval of the Atmospheric State
S. Del Bianco, U. Cortesi & B. Carli

Tools

ESA's Toolboxes for Optical Earth Observation Data: BEAM, CHRIS-Box and the Glob-Toolbox
N. Fomferra, M. Peters, R. Quast et al.

QA4EO

The CEOS Cal/Val Portal: A New Collaborative Environment
A. Burini, T. Block, C. Brockmann & P. Goryl

Operational Quality Control of SAR Data under the IDEAS Contract
E. Griffiths, K. Haria, P. Meadows & N. Miranda

Sensor Intercalibration for the ESA GlobAlbedo Project Using QA4EO Protocols
D. Potts, S. Mackin, I. Behnert et al.

IDEAS Quality Control Activities for AATSR
S. O'Hara & S. Cowie

IDEAS and QA4EO: Assuring Earth Observation Data Quality
S. O'Hara & G. Davies

017-D4 Quality Control of a Long-Term Dataset: The (A)ATSR Archive
S. O'Hara

Data Quality Control for Operational Satellite Borne Instruments
C. Kent, J. Jackson, A. Borg et al.
Instrument Data Quality Evaluation and Analysis Service
G. Davies, J. Swinton & S. O’Hara

Data Quality Processes Applied to the MIPAS/Envisat Mission: Status and Evolution
F. Niro, A. Dehn, L. Saavedra de Miguel et al.

GECA: ESA’s Next Generation Validation Data Centre
Y.J. Meijer, T. Fehr, R. von Kuhlmann et al.

Aerosols

Retrieving Black Carbon on Snow and Ice Surfaces in the Arctic
R. Solberg, C.E. Bøggild, B. Aamaas et al.

Agriculture

Forecasting Seasonal Water Needs Under Current and Future Climate
A. Spisni, W. Pratizzoli, F. Tomei et al.

Retrieving Vegetation Water Content from MODIS, High Resolution and Ground Data in the SMOS VAS Cal/Val Site
F. Camacho, J. Cernicharo, B. Martinez & E. López-Baeza

Detecting Agricultural Practises Using Envisat ASAR Dual Pol and RADARSAT-2 Quad Pol Data
D.J. Weydahl, H.O. Eggestad, L. Øygarden & K. Sørensen

Coastal Altimetry

Validation of Envisat RA-2 Sea Level Data in the Gulf of Cadiz (Spain)
P. López-León, J. Gómez-Enri, B. Tejedor et al.

Hyperbolic Retracker: Removing Bright Target Artefacts from Altimetric Waveform Data
G.D. Quartly

Coastal Zones

Canadian Oceans and Coastal Socio-Economic Initiatives Using Envisat, SMOS, CryoSat-2 and RADARSAT-2
G. Aubé & Y. Crevier

Chlorophyll $A$ in Turbid Productive Waters: Testing the Limits of NIR-Red Algorithms
Y.Z. Yacobi, W.J. Moses, S. Kaganovsky et al.

Coastline Mapping Exploiting EO Data
V. Baticchi, M. Crespi, F. del Frate et al.

ESA Sen3Exp Campaign: San Rossore Coastal Zone Monitoring by CHRIS/PROBA-1
A. Barducci, D. Guazzi, C. Lastri et al.

Long-Term Remote Sensing of the Wadden Sea Ecosystem on the German North Sea Coast
M. Gade, K. Stelzer & J. Kohlus
CryoSat

An Introduction to the Quality Control Monitoring of CryoSat-2 and a Comparison with Envisat RA-2 Activities
R. Mannan, S. Pinori & P. Féménias

Data Assimilation

Numerical Solution of the Variational Data Assimilation Problem Using Satellite Data
V.I. Agoshkov, S.A. Lebedev & E.I. Parmuzin

DEM, Geology & Geomorphology

Topographic Phase Errors: Difficulties and Solutions in High-Precision Measurement of Deformations in Mining Areas
D. Walter & W. Busch

Automatic Generation of High Quality DSM based on IRS-P5 Cartosat-1 Stereo Data
P. d’Angelo, A. Uttenthaler, S. Carl et al.

Spectral Analysis of Hyperion, ALI, SPOT and ASTER Data to Characterize Geological Features in Northern Pakistan
S.A. Mahmood, V. Liesenberg, A. Wijaya et al.

Generating Scattered DEM Points from High-Resolution Stereo Satellite SAR Images
D.J. Weydahl & K. Eldhuset

Greenhouse Gasses

Carbon Dioxide Retrieval from IASI Measurements Using the KLIMA Inversion Algorithm
U. Cortesi, S. Del Bianco, M. Gai & B. Carli

Validation of Atmospheric CO₂ and CH₄ Retrieved from GOSAT
A. Cogan, H. Boesch, H. Parker & P. Monks

Quantifying Regional Biases Caused by Aerosol and Cirrus Clouds in Methane Retrievals from SCIAMACHY
D.S. Knappett, H. Boesch & P.S. Monks

Land Altimetry

Developments in Satellite Radar Altimetry over Land
M. Meloni, G. Vingione, C. Loddo & S. Dinardo

Towards the Assessment of Regional Mass Variations in Continental Surface Water Storages from a Combination of Heterogeneous Space and In-Situ Observations
F. Seitz, K. Hedman, C. Walter et al.

Hydrology of the Western Siberia: Seasonal and Interannual Changes
E.A. Zakharova, A.V. Kouraev, M.V. Kolmakova et al.

From Wet to Arid Zones: Continental Hydrology from Satellite Multi-Sensor Data and In Situ Observations
A.V. Kouraev, E. Zakharova, A. Cazenave et al.
Remote Sensing of Savanna Landscape Structure Using the Geoscience Laser Altimeter System
E. Khalefa, S. Archibald, A. Nickless et al.

Land Cover & Land Use

Support for Automation of Cartography Based on Earth Observation Images – A Data Mining Approach
C. Cucu-Dumitrescu, F. Serban, M. Buican & M. Datcu

Oil Seep in Lake Baikal Imaged and Studied with the ERS-2 and Envisat SAR
A. Yu. Ivanov

From Algorithms to Processing Chains: A Review of Land Cover and Land Use Change Detection Methodologies
F. Thonfeld, A. Hechtijfen, M. Braun & G. Menz

Evaluating the Angular and Spectral Properties of Some Land Cover Types in Huixian Site (China) Using CHRIS/PROBA Data
V. Liesenberg, D. Bayarbaatar, A. Wijaya & R. Gloaguen

River Channel Migration: A Remote Sensing and GIS Analysis
Md. T. Islam

Earth Observation from Space to Support the UNCCD: The Desertwatch Extension Project
R. Armas, M. Caetano, H. Carrão et al.

Detection and Extraction of Roads from High Resolution Satellite Images with Dynamic Programming
S. Benzouai & Y. Smara

Opportunities for Monitoring Vegetation Structure in River Floodplains Using High-Resolution Satellite Data
L. Kooistra, E. Romijn & J. Verrelst

SLCCLASS – A Model-Based Unsupervised Land-Use Classification System
S. Migdall, B. Hausknecht & H. Bach

Using Centimetric Visible Imagery Obtained from an UAV Quadrotor for Classification of Radar Images
A. Gademer, B. Petitpas, L. Beaudoin et al.

Surface Features Analysis in Salt-Affected Area Using Hyperspectral Data: A Case Study in the Zone of Chotts, Tunisia
M. Bouaziz, V. Liesenberg, S. Bouaziz & R. Gloaguen

Mapping of Impervious Surfaces and Green Vegetation Fraction in Urban Areas Using High-Resolution Optical- and SAR-Data
B. Mack, F. Becker & G. Menz

Comparison of Optical and Radar Sensors in Mapping Urban Changes
A. Debien, M. Marconcini, F. Costantini & F. Sarti

Object-Based Fusion of Envisat ASAR and HJ-1 Multispectral Images for Urban Landcover Mapping
T.-T. Vu & Y. Ban
Multi Sensor Evolution Analysis (MEA): Land Use and Land Cover Analysis Applied to (A)ATSR Time Series
A. Beccati, M. Folegani, S. D'Elia et al.

Land Surface Temperature
Assessing Urban Heat Islands in Madrid Using Multiyear Land Surface Temperature Retrieved from ERS and Envisat (A)ATSR
T. Brás, M. Berger, I. Trigo et al.

Urban Heat Island Effect Analysis by Remote Sensing Satellite Data
M. Zoran, R. Savastru, D. Savastru et al.

Significant Improvements in the AATSR Land Surface Temperature Algorithm
O. Zeller, E. Comyn-Platt, J. Remedios & A.J. Prata

Data Integration and Remote Mobile Investigator for Fire Risk Assessment
A. Lo Tauro

The Global Climatology of Large Lakes
C.J. Merchant & S.N. MacCallum

Results of the DUE Thermopolis Campaign with Regard to the Urban Heat Island (UHI) Effect in Athens
I.A. Daglis, S. Rapsomanikis, K. Koartidis et al.

Performance of a New Satellite Retrieval Scheme for Observations of Lake Surface Temperature
S.N. MacCallum & C.J. Merchant

Airborne Imaging Systems and Digital Technology for Thermal Mapping and Land Applications
A. Lo Tauro

Ocean Altimetry
Comparison of a Marine Gravimetric Geoid and Global Satellite Model in the Atlantic Ocean
M.F. Lequentrec-Lallancette & D. Rouxel

Spherical Wavelet Analysis and its Application on Sea-Level Data from Altimetry
K. Rizopoulou & P. Challenor

Multivariate Regression Approach to Integrate Multiple Satellite and Tide Gauge Data for Real Time Sea Level Prediction
Y. Cheng, O.B. Andersen & P. Knudsen

The Mean Sea Surface DTU10MSS – Comparison with GPS and Tide Gauges
O.B. Andersen, P. Knudsen & T. Bondo

Ocean Circulation & Currents
Satellite SAR Sensing of the Okhotsk Sea: Geographical and Seasonal Features
L.M. Mitnik & V.A. Dubina
Evaluation of High-Resolution Sea Surface Current Fields in the Baltic Sea
Derived from Multi-Sensor Satellite Imagery
B. Seppke, M. Gade & L. Dreschler-Fischer

Interpolation of On-Line Data of the Argo Float System for Data
Assimilation in the World Ocean Circulation Model
N.B. Zakharova & S.A. Lebedev

Oil Spills

Polarisation and Mode Combinations for Ship Detection Using RADARSAT-2
T.N. Hannevik & R.B. Olsen

Third Party Missions

DEIMOS-1 Announcement of Opportunity: New Challenges and Achievements
J.-L. Casanova, P. Duque, A. Calle et al.

SAR & Atmosphere

Measuring the Vertical Deformation in Azores Islands: Enhanced PS-InSAR
Processing by Tropospheric Phase Delay Correction
J. Catalão, G. Nico, R. Hanssen & C. Catita

Research of InSAR Atmospheric Correction – Case Study of
Yutian Earthquake, China
X. Cui, Q Zeng, C. Liang & J. Jiao

Sentinel 2/3

Cloud Detection for Sentinel-2
J. Louis, A. Charantonis & B. Berthelot

Snow

The Legacy of 10 Years QuikSat Land Applications – Possibilities and
Limitations for a Continuation with Metop ASCAT
A. Bartsch, W. Wagner & V. Naeimi

Snow Cover Determination from Envisat ASAR: Case Study from the Czech Republic
M. Potuckova & J. Jellicka

DUE AvalRS: Remote-Sensing Derived Avalanche Inventory Data for
Decision Support and Hind-Cast after Avalanche Events
R. Frauenfelder, K. Kronholm, R. Solberg et al.

Measuring and Modelling Heterogeneous Snow-Melt with Satellites
S. Hancock, R. Baxter, A. Wiltshire & B. Huntley

Modeling Snow-Microwave Interaction for Snow Accumulation
Retrieval from Remote Sensing Data
S. Linow, W. Dierking & M.W. Hörhold
Soil Moisture & Hydrology

Retrieval of Soil Moisture Content from SAR Data to Support Water Resources Management and Agricultural Practice
*M. Filion, M. Dissanska, G. Mascaro et al.*

Using Satellite Measurements of Surface Soil Moisture to Improve Estimates of CO₂ and CH₄ from Peatlands
*N. MacBean, M. Disney, J. Gomez-Dans et al.*

Near Surface Soil Moisture Estimation Using SAR Images: A Case Study in the Mediterranean Area of Catalonia
*A. Reppucci & L. Moreno*

Operational Satellite Based Flood Mapping Using the Delft-FEWS System
*R. Westerhoff, J. Huizinga, M. Kleuskens et al.*

In-Situ Soil Moisture Data Compared to Active and Passive Microwave Satellite Sensors Measurements
*D. De Chiara, R. Crapolicchio & P. Lecomte*

SOFIA, Soil and Forest Information Retrieval by Using RADARSAT 2 Images: First Results of the Project
*C. Notarnicola, G. Bertoldi, F. Del Frate et al.*

Analysis of the TIR (8-13 µm) Emissivity Dependence on Soil Moisture in the Context of the SMOS Mission
*E. Valor, M. Mira, C. Coll et al.*

Cross Calibration of SMOS Soil Moisture Measurements with Satellite Radar Altimetry Estimates and In-Situ Data
*P.A.M. Berry & J.O. Carter*

Soil Moisture Estimation over Southeast Ireland Using C- and L-Band Interferometric Synthetic Aperture Radar (InSAR)
*B.W. Barrett, E. Dwyer & P. Whelan*
